## Science & Engineering of Sustainable Petroleum

---

By M. R. Islam

Nova Science Publishers Inc. Hardback. Book Condition: new. BRAND NEW, Science & Engineering of Sustainable Petroleum, M. R. Islam, We are facing a crisis that threatens the sustainability of the entire planet. Civilisation has been defined up to now by how efficiently we handle our energy needs; nevertheless, today we are bombarded by proposals for alternative technologies that are more energy-intensive than whatever preceded. "Engineering" has come to mean more processing, greater profit margin, and yet more implosive outcome. Covering up this failure to develop sustainable alternatives highlight only short-term gain. The focus on short-term and tangibles obscures the true vision of technology users. Perpetual justifications of progressively less efficient technologies has become a rampant source of the profoundest disinformation. No sector has fallen bigger victim to this disinformation campaign than the petroleum industry. Today, the most efficient naturally processed fuel (fossil fuel) production is synonymous with unsustainability and compatibility with nature and the environment. Accompanying this slogan is the environmentalists drumbeat about "renewable" energy. Everywhere people are sold on the idea that even genetically altered vegetable oil is sustainable and efficient whereas natural crude oil exploitation is not. With this slogan, it has become fashionable to replace the agricultural...
