Createspace, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Dr. Caskey states: It is not published as an argument for or against the theory that the Attic potters consciously used the systems of proportion discovered by Mr. Hambidge, nor as an argument for or against the theory that a work of art designed according to these systems is better than one designed according to another system, or according to no system at all. Its aim is to present in as complete and accurate and intelligible a form as possible the evidence furnished by the whole collection of Attic pottery in the Museum of Fine Arts. In the preface he explains his own position as follows: (1) That coincidences are in so many cases so accurate, simple and logical that I find it less difficult to believe them due, in part at least, to conscious design, than to instinctive obedience to a mysterious aesthetic law, or to mere accident. (2) The proportion obtained by dividing a line in extreme and mean ratio, which plays an important part in Euclidean geometry, has for ages been recognized as an ever-recurring phenomenon in artistic design. It has been called by various names-divine proportion, golden section, ratio of Phidias, and the like; and it has been studied in many ways. By considering it as an area, rather than a division of line, and by emphasizing its relation to the rectangle, Mr. Hambidge has immensely simplified the problem of investigating its significance. The evidence in this book, so painstakingly compiled, together with the material previously published by Mr. Hambidge, seems to be rather more than argument. One is inclined to accept it as proof and in view of it, discard the use of...
