modified set of procedures for optical property measurements described b  
Daughtry et al. ( 1989 ) was used. The sample mount was attached to a ma  
aperture the size of the illumination light source beam. This assembly was  
the light table underneath an image analysis systems camera. The image v  
captured and the gap area measured by counting the number of whitish p  
area was ratioed to the total area of the incident beam ( i. e. , the area of t  
to give the gap fraction ( area of nonintercepted illumination beam ). The  
was then placed in the...

### Reviews

*This sort of ebook is every thing and made me hunting forward and a lot more. I have read through and i also am confident that i am going to going to go through once again once more in the foreseeable future. I discovered this publication from my dad and i encouraged this book to discover.*

-- **Prof. Kip Spinka IV**

*These sorts of publication is the perfect pdf accessible. It is filled with wisdom and knowledge You are going to like the way the author write this book.*
