EMOTION, AGING, AND HEALTH (HARDBACK)

American Psychological Association, United States, 2016. Hardback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book. Although older adults face significant health challenges, they tend to have better emotion regulation skills than younger or middle-age adults. Why is this so? And how might we use this knowledge to promote better health and well-being in adulthood and later life? This book explores the reciprocal relations between aging and emotion, as well as applications for promoting mental and physical health across the lifespan. The authors discuss the neural and cognitive mechanisms behind age-related shifts in affective experience and processing. In addition to presenting emotion regulation strategies for offsetting age-related declines in mental and physical functioning, the book examines the role of culture and motivation in shaping emotional experience across the lifespan, as well as the factors defining boundary conditions between human illness and human flourishing in old age. By highlighting these major advances in interdisciplinary research, the authors suggest promising avenues for intervention.
