Reviews

The publication is easy in read better to understand. It is writter in basic words and phrases rather than hard to understand. You wont truly feel monotony at anytime of your respective time (that's what catalogues are for about if you question me).

Nursing Knowledge International, United States, 2007. Paperback. Book Condition: New. 160 x 160 mm. Language: English . Brand New Book. How do caring and compassion show up in the demanding, often chaotic experience of health care practice? This book, in full-color and supported by magnificent photography, seeks to answer that question and put caring and compassion back at the center of excellent health care in spite of the time-pressured, cost-conscious, high-tech focus of modern health care. Authors Alan Briskin and Jan Boller met with 20 registered nurses for a sustained dialogue at a California community hospital to work toward an answer to this very question. Telling stories and discussing key principles of caring, the group engaged in conversations that revealed the inner landscape of both caring and caretaker. Using principles of appreciative inquiry, reflective practice, generative dialogue, and the power of speaking in circle, the work was an affirmation that when people are ill, they need a team to care for them. Likewise, caregivers need to be part of a group that cares together. Illustrated with original photography by one of the authors, the book has a beauty and spaciousness that is reflective of the book's message and perfect for anyone who wishes to experience relationship-centered care as a lived experience.
