Reviews

It in a single of the most popular ebook. It really is simplified but excitement in the fifty percent from the pdf. It is extremely difficult to leave it before concluding, once you begin to read the book.

The latter has entered one of our principal ports and has infected a limited number of the population of the city of New York. Thanks to the efficiency of the board of health it has been kept under relative control and is now abating. The former, starting from its home in the East some two years since and following the track along which it has heretofore traveled, has not only reached the most frequented ports of Western Europe, but it has traversed the Atlantic, and during the last summer sought admission to our shores. Through a number of fortuitous circumstances rather than by the aid of any well-ordered quarantine, we have been spared the misery of an active invasion. It has retreated to the farther side of the ocean and seems to be preparing with renewed energy and increasing activity for a second attempt to invade us. Shall it succeed? This is the vital question which we are called upon to meet and if possible to solve. The subject is not incapable of solution, but there are difficulties which beset us owing to the character of our institutions and the organic laws under which we live. It has been shown on more than one occasion that the strict enforcement of quarantine laws in America, as well as in Europe, has prevented contagious diseases from entering the seaports of a country, when full and judicious measures were put into execution....
