The outcome at the present moment is that human embryos and animal embryos are being grown together by the scientists. Hilarie is a mother of eight, a grandmother of 13 and it is her opinion that the family unit is being badly damaged. Please join in the dialogue of scientists, politicians and mothers and fathers. The new science of genetics that grows things is a manmade attempt at life that is bigger and better than homo sapiens. We humans have the dignity of being made in the image of God. The issues are life, soul, identity and survival. Let your voice be heard.
