Reviews

The publication is simple in go through preferable to fully grasp. I am quite late in start reading this one, but better then never. It is extremely difficult to leave it before concluding, once you begin to read the book.

(A full dose of chloral hydrate is good in irritable patients). The keratome is inserted about a line from the corneo-scleral margin into the cornea, and introduce the blade so as to divide as little tissue as possible Fig. 49. Tumors.--Not much to be done. Simple and malignant, as met with elsewhere. If of sufficient import to render it necessary, excise them.
