### ***Reviews***

*It is one of the most popular books. I am quite late in starting to read this one, but better than never. Once you begin to read the book, it is extremely difficult to leave it before concluding.*

According to Ervin Laszlo, we are at a critical juncture in history, a decision-window where we face the danger of global collapse--or the opportunity for global renewal. He presents a concise overview of the current crises we face (environmental, social, economic, and institutional), persuasively arguing that if something is not done quickly, we face disaster. We have the opportunity right now to head off trends that could lead to a critical tipping point. Laszlo s solution is a global consciousness shift that entails a new universal morality, a new ecological awareness, and a reverence and caring for the earth. Included here are concrete suggestions of what the reader can do to promote this shift in evolutionary consciousness.
