The Sheer Harpin: Form of the Moulded Edge--Form of the Bevelled Edge--Bevelling Board--Expansion of Moulded Edge in the Sheer. The Stern Sarpin: Form of the Moulded Edge--Form of the Bevelled Edge. RIBBANDS AND HARPINS. For erecting purposes, to keep the frames in their relative positions until the inside strakes of the shell-plating are in place and secured, ribbands and harpins are used. The former, which are made of pine wood about 6 inches siding, are placed over the entire length of the ship on the outside of the frames, in way of the outside strakes of the shell-plating. They are usually straight lines in the after Body sections, and curved to the sheer in the fore Body for about the half length, then...
