Excerpt: . . . 11 of sectors, from food security to micro-finance, to girls education, and to promoting major cross-cutting imperatives, such as the empowerment of girls and women. Addressing HIV and AIDS solely as a medical challenge is like treating the symptoms, but not really the cause of the disease. So we feel that the objective of having a long-term sustainable impact on the epidemic needs to focus on three areas. First of all, addressing HIV and AIDS within the development framework. Second, looking at, focusing on the vulnerability of girls and women. And third, investing in scaling up of evidence-based prevention strategies. And it is on those three recommendations that I will focus my comments today. First of all, talking about addressing HIV and AIDS within a development framework, we think that Congress should strengthen U. S. global AIDS...
