Reviews

This created book is wonderful. It is amongst the most amazing book i have got go through. I am just effortlessly will get a enjoyment of looking at a created publication.

(Prof. Jasper Murazik PhD)

PAMPHLETS ON BIOLOGY KOFOID COLLECTION (718)

RareBooksClub. Paperback. Book Condition: New. This item is printed on demand. Paperback. 64 pages. OCLC Number: 55964375 Excerpt: . . . II. TEMPORARY BUSINESS RELIEF PROVISIONS A. Special Depreciation Allowance for Certain Property Present Law Depreciation deductions A taxpayer is allowed to recover, through annual depreciation deductions, the cost of certain property used in a trade or business or for the production of income. The amount of the depreciation deduction allowed with respect to tangible property for a taxable year is determined under the modified accelerated cost recovery system (MACRS). Under MACRS, different types of property generally are assigned applicable recovery periods and depreciation methods. The recovery periods applicable to most tangible personal property (generally tangible property other than residential rental property and nonresidential real property) range from 3 to 25 years. The depreciation methods generally applicable to tangible personal property are the 200-percent and 150-percent declining balance methods, switching to the straight-line method for the taxable year in which the depreciation deduction would be maximized. Section 280F limits the annual depreciation deductions with respect to passenger automobiles to specified dollar amounts, indexed for inflation. Section 167 (f) (1) provides that capitalized computer software costs, other than computer software to which section 197 applies, are recovered ratably over 36 months. Section 167 (g) provides that the cost of motion picture films, sound recordings, copyrights, books, and patents are eligible to be recovered using the income forecast method of depreciation. Under the income forecast method, a property's depreciation deduction for a taxable year is determined by multiplying the cost of the property by a fraction, the numerator of which is the income generated by the property during the year and the denominator of which is the total forecasted or estimated income...
